*** Important Note to Ph.D. applicants only:** There are two international trips students are expected to make every year: One is mandatory; it will be in a selected developing country to take part in ICT-U research workshops and to present student papers at the workshop and conference. The second trip is an optional trip to the U.S. for the students to spend a month of research experience at one of our US-Based or Europe-Based affiliate centers. Students will cover the cost of this trip, if they choose to take advantage of this option.

*** Important Note about ICT-U Semesters:** Given that ICT-U follows the typical American University calendar, there are two semesters in an academic year (Fall and Spring). The third semester (summer) is optional but may be taken up by students who wish to expedite completion of their program. The summer semester runs from July to October and students taking this option will pay the equivalence of one semester tuition/fees. The top-up bachelors program takes about 15 -24 months (3-5) semesters (excluding the first summer semester devoted to internship and project) depending on the student's background; the bachelors program typically takes four years to complete but can be completed in three years if the students takes the Summer option; the masters program take an average of 18 months (four semesters) depending on student's academic background; students may be required to take undergraduate prerequisite depending on their background. The Ph.D. program takes about 3-4 years depending on the student's background and ability to complete their coursework and thesis on time.
